

S.P.ENGINEERS

(Excellence of Automation)

We are an Indian based company, formerly registered in 2004. The company was founded with an objective of introducing contemporary world class standards in SPM's & Motion Control System. The variety of mechanisms we are engaged in designing and developing is appreciated for durability, less power consumption, compact design and economical pricing. Having such attributes, we receive orders from many industries in which Automobile, Electrical, Medical and Machining are a few to name.

VISION

To be the world leader in "The Line of Engineering Automation Solutions" through our passion for innovation with commitment and honesty.

MISSION

To build a world class organizations through helping customers achieve their business objectives by providing Innovative, Best in Class Solutions and Service.

VALUES

- 
- INNOVATION
 - HONESTY
 - COMMITMENT
 - PASSION
 - QUALITY
 - RESPONSIBILITY

PRODUCT

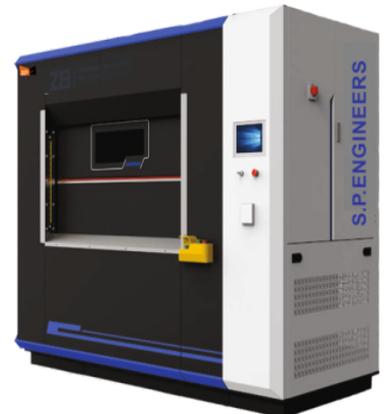

-  Robotic Automation (Robotic Cell for IP, Bumper, Door Trim)
-  Leak Testing Machine.
-  Hydraulic, Hydro-Pneumatic, Punching Machine.
-  Bumper Sensor Testing Machine.
-  Ultrasonic Welding SPM.
-  Infrared Hot Plate Welding Machine.
-  Heat Stack Welding SPM.
-  Vision Based Inspection Systems.
-  Vibration Welding
-  Assembly Line Automation.

Ultrasonic Welding Machine

Robotic Welding Cell

Linear Vibration Welding Machine

Sun Visor Heat Stack Welding Machine

Bumper Punching Machine

Infrared Hot Plate Welding Machine

Beading Machine

Assembly Work Station

Vision Based Inspection Systems

S.P.ENGINEERS
